GOVERNMENT OF MYSORE.

GENERAL.

PROCEEDINGS.

Dated Mysore, 27th October 1892.

Camp No. 102—9.

Directing the Deputy Commissioners to pay more attention in future in the preparation of Supari accounts and requesting them to submit explanation on the discrepancies pointed out in the accounts received with the Revenue Administration Reports of their respective Districts for 1891-92, before the end of November next.

Bangalore

19/10/98

My dear Friend

I am sorry to say that the conclusions I have drawn in the matter of the Supari question based on the figures given to me by the Chief Scribe seem to be all wrong. Because the figures given to me ~~to be~~ are all wrong. On looking into the detailed accounts in connection with the Revenue Report of 1890-91, I find the following

Extraordinary figures —

	Area of sapam gums.	Acres.	Duty collected
Bangalore	212	1532	230
Kolar	78	706	36
Tumkur	207	1820	58754
Mysore	84	385	3118
Hassan	239	1281	4254
Channarayana	14082	204217	213137
Kavur	7602	104468	88315
Chitalroog	57	275	7915
Total	22560	314684	375759

This ignores
Bihar cum
Cocacum
Gardens
why?

Now you will see that 207 acres
in Dinkur produced a duty of
Rs 58754, while a larger area
of 212 acres ^{in Bangalore} produces only Rs 230.
Again in Idar, 78 acres produced
Rs 36, while 82 acres in Mysore
produced Rs 3118 - Hassan
with ^{have} four times the area in Mysore
produces only 1/20th more duty - These
figures conclusively show
that the areas given are all
wrong & yet ^{that} the figures of
the Province were supplied to me

Bengalore
19th Oct

My dear Friend

In continuation of my note of this morning, regarding the errors I have discovered in the matter of Dupare gardens, I beg to suggest that Mr Ramanna of the Petition Dept be at once placed at the head of the Account Dept, all the accountants being placed under his orders. If you permit me to do this at once, I shall give him all the assistance in my power, & see that the accounts are all right in the course of a year or so. I do not think I shall require much additional estb. — If necessary, I shall employ a few temporary hands. It is absolutely necessary that we should make our accounts reliable — Even now

Our Revenue accounts do not
correspond with the Finance accounts
Kept by the Comptroller. There
not safe. we had a report of
embezzlement the other day of some
Rs 2000 or 3000 in ^{the Mar.} further of (3) &
then wd not have occurred if the accounts
had been properly kept.

Collected
under
of money

Mea
Sunder
has dis-
covered
by comparing
the actual
cash with
the accounts

As you have told ^{me} to look
after the Revenue work, I feel it
my duty to write strongly on the subject
& I hope you will not put off passing
orders on the subject.

The Chief Secy may be asked to
employ some one else in the Mr. Dett
in the place of her Rawan.

Yours Sincerely
P Chetani

P.S. I think that there is no use

It is now
under the
K. G. under
the -

in Reckling the Statehouse Dept under
Mr Ricketts - I found the other
day awful mistakes in the Price
Returns - I was at once transferred
the coll to the Chief Clerk's office
& place it under Rammerson - I
hope you will order this too -

Another thing I want is, you must
authorize me to stop the pay of
the officers concerned if they delay
submitting the returns called for - Very
often I fix the date of the submission,
after due care, but the return never
comes on the due date & some silly
reason is given -

W. F.

1891

Note for the Deewan

Could we discuss the question
of separate garden assessment
in the next Representative assembly?
If so, I would suggest
~~to send~~ a previous communica-
tion made to the Dy Commr, so
that they may tell the Representative
members to consider over the
matter & come prepared to
talk. — The points to
be discussed are

(1) What is the best method
of equalizing the ass't — ?

— (2) would the simple reduction
of the maximum rate to, say,
15 or 16 Rs an acre meet
the requirements.

(4) would the abolition of the duty
make the existing ass't
equal. —
ass't

(5) would the increase of duty
to Rs 1-4- per mow, or
the reduction of ass't to 2 Rs
an acre, equalize the
ass't incidence of
taxation ?

(6) Who are the people
that mostly suffer by
the existing state of things.—

The opinions of the representative
Members, especially if they
come prepared, will be of
much value to us, &
it is right that we should
give them time to talk over
the matter with their constituents.

If you approve of
my view, we may issue
a short Pro as follows. —

Govt. Pro. —

With reference to the frequent complaints of the owners of Supari gardens in the Malabar Taluqs that their ^{of the gardens} assessments are prohibitively high, the Govt. would be glad to know the opinions of the ~~several~~ ^{several} representative members of the Taluqs in which there are Supari gardens as to the best mode of equalizing the burden of taxation. — The total amount of Malak on Supari now realized in the Province is nearly 4 Lacks of Rupees, & it cannot be given up by Govt. without

some
~~a~~ corresponding ~~addition~~
 addition to the Revenues
 in some other shape. The
 you are particularly
 anxious to know
 whether, the complaint
 of the ayals is entirely
 in regard to the rates
 of assessments higher than
 the maximum rates
 prevailing in the adjoining
 British territory, or in
 regard to the inequality
 of assessment compared with
 the yield, whether
 the reduction of
 assessment to a uniform
 rate of 2 or 3 Rs an
 acre with a corresponding
 increase in the rate
 of Halat, say to
 Rs 1-4- per maund
 were not perfectly

equalize the
cost, & whether
the abolition of
duty, if it be
possible, will
entirely remove
the existing inequalities,
What is the general
percentage of the
superior crop gotten
to the total produce
of an acre of garden,
what ~~the~~ the average
cost of making a
garden & bringing
it into maturity,
& the average annual
cost of its maintenance,
is, & what the
wishes of the people
are on the subject.

The Jy Carrs
concerned are
requested to intimate
this to the several
representatives

members, & informed
them that the Dewan
would be prepared
to hear what they
have to say & examine
such ~~incriminating~~^{man}
evidence as they ^{may} be
able to produce. —

This picture was given to me
by the artist by night
He will deliver it to the
Fitz and it will be sent to
the President for the
I am sure the President
will be very much interested
to see the picture of the
man. All 25/9/99.

REVENUE BRANCH.

OFFICE NOTE.

SUBJECT.

In re - Collection of duty
on Sufari, i.e. collection on the
difference between the quantity estimated
by the Patils and that for which Kulwar
Chits are given &c.

LAST REFERENCE.

Letter No. 792 dated 31st August 1913
201
from the Dy Commissioner Kolar District

The Deputy Commrs of Districts
were requested to submit a
statement showing the amount
of duty collected on the difference
between the quantity of
Sufari produce estimated
by the Patils and that for
which passes or (Kulwar
chits) are actually granted
plus the quantity allowed
for domestic consumption,
within the last 5 years and
also the sum due on account

of such charges in all the
past years up to the end of

1891-92. It is clear from the replies

received from the Deputy Commissioners that the practice

referred to does not obtain in any of the Districts & that there is nothing due

Bangalore District: — on account of such charges in all the
past years.

3. The Dy. Commr, Bangalore
District, has submitted a
statement showing the
quantity as estimated by
the village officials, the
quantity actually pro-
duced, the quantity allowed
for home consumption and
the quantity on which duty
was actually levied during
the 5 years ending 1891-92.
The Patels' Estimates are only
nominal and no use is made
of them and there is nothing
left for collection at the
end of the year 1891-92.

Kolar District: —

4. The Dy. Commr, Kolar
District reported that Supari
is grown in the Goribidnur

2. The following is however
a resume of the replies received
from them.

Taluk, and submitted a
 Statement showing the
 amount of duty collected
 during each of the 5 years,
 the amount of duty due up to
 the end of 1891-92, the amount
 collected out of it up to the 6th
 of July 1892 and the balance
 remaining to be collected
 at the end of the year 1891-92

Amount of duty due Rs. A.
 up to the end of 1891-92 } 3,060-9-10
 including cess.

Amount collected } 762-8-4
 up to 6th July 1892

Balance including 2288-1-6
 cess

But when a complete state-
 -ment was called for, the
 Dy. Commr. submitted an-
 -other Statement with his
 docket no $\frac{792}{201}$ of 31st August
 1893, in which the duty leviable
 on the quantity available
 at the close of the year 1891-92
 is put down as only Rs. 74-11-1
 (or Rs. 75 in round numbers),

according

according to the particulars
shown ^{in the accompanying statement.} It is not understood
as to what became of the
difference and whether the
collections made during
the year 1892-93 were wrongly
deducted from the large
balance shown in the first
statement as due at the
end of the year 1891-92.
No allusion is made in the
statement either to the Potails'
estimate of the Supari produce,
~~or to the quantity allowed for~~
~~domestic use~~ or to quantity
on which duty has been
levied on the authority of
the Potails Kulwar chit.
~~Information on these points~~
~~is necessary.~~

Tumkur District:—

5. The Dy. Commr submitted
an abstract statement
showing the collection of
duty on Supari during

the practice of village officials making a rough estimate of the produce on the trees nominally, it is never made regularly or with any approach to accuracy. This estimate does not at all form the basis of the actual produce liable to duty after the deduction of what is allowed for home consumption. There is therefore no such difference as is alluded to in Serial No. 1 and no duty is levied thereon.

Kaour District:—

9. The Deputy Commr has submitted a statement which furnishes the following information

- Mo. S. T.
- (1) Previous year's
Stock Subject } 34,619-27-27
to levy of duty
- (2) Total estimate
of crops for 5 years } 6,31,717-3-25
-
- (3) Total of 142-666,336-31-24
- (4) Total export
asper Kulwar } 5,95,162-7-22
chit
- (5) do-allowed
for domestic
use } 37,461-38-15
-
- (6) Total of 485-6,32,624-6-9
- (7) Stock Subject
to levy of duty } 33,712-25-15
- (8) Amount of
duty on (7) } Rs. 25,284-8-6
- (9) Amount actually
collected up to
the end of June
1892 } Rs. 20,932-2-2
-
- (10) Balance at
the close of the
year to be
recovered } Rs. 4,352-6-4
-

* This is apparently the actual
yield, as no distinction is
made out between the estimate
of the actual yield, in the calculation
made in the statement as to the
duty levied on the crops.

Chitaldrug District:-

10. The Dy. Commr has sub-
mitted a statement showing
the

balances of the previous year,
the year's produce as estimated
by the Potal, the quantity
allowed for home con-
-sumption, the total quantity
on which duty was actually
levied during the year and
the balance carried forward
for the next year. The total
quantity of area - nut which
remained at the close of the
year 1891-92 without duty
levied on it, was ^{ms S. Tola.} 6014 - 5 - 23 $\frac{3}{4}$

No difference has been made
between the estimates by
the Potal and the actuals.

These ^{actuals} ~~estimates~~ form the
basis of the foregoing cal-
-culations. ~~The accompanying~~
11. The accompanying
- ~~ing~~ Statement prepared
in this office from the
Returns received from the
Districts shows the quantity

of Supari produced during
5 years, that on which duty
was collected, the quantity
allotted for home consumption,
and the balance of Supari
remaining with the ryots
duties unpaid, and the
amount of duty thereon,
at the end of the year 1891-92.

Submitted for orders.

7/10/93 7/10 7/10 7/10
Revenue
Commissioner -

This Supari stock acct
is intended one kept for the use
of ryots in watering
the probable quantity liable to
pay duty & the quantity
which actually pays duty.
Thus keeping an eye on
smugglers & smuggling -
It may be that the variance
of difference betⁿ the two
quantities aforesaid is not in
itself & is not made by their
found in buying the stock
unpaid duty. But there
is little doubt that it involves occasional
correspondence and irregular
proceedings.

(To be kept with another
file regarding area of
Supari cultivation)

4

The Chief Secretary to the
Minors of Mysore

Sir,

In reply to your official
Memo No 3114-21 dated the 20th
May, I have the honor to state
that as far as I am aware of,
no such practice as mentioned
therein, obtains in this District.
2. The duty is not levied on
any such difference, nor on
the duty allowed for domestic
consumption -

3. The duty is levied on the
actual produce entered in the
Patel Book Month by Month
during the "Pekhe" or curing
season, under the signature
of the producer and the Patel,

As it is sold under-passes
(inward chits) issued by
the latter -

4. This entry of the quantity
procured by each Sanyas
or gardener is not entered
by a mere estimate made
by the Patel, but by actual
weight, deducting the quantity
usually allowed for home
use, which is free from duty.

5. What is called the "Hawani
Andaz" that is a rough esti-
mate of the fruit on the trees
is made, but nominally, by
the village officials and
checked by the Leger-Officials,
but it is never made re-
solutely or with any ap-
proach to accuracy. Any-
how this estimate does
not at all form the basis
of the actual produce liable
to the duty after its reduction

7-

of what is allowed for home
consumption

6. The practice obtaining
in this district, as detailed
above, is thus, not as objection-
able as that given in the
same under advertisement.

7. I have however called
upon the Amildars in the
district to report at once,
if the objectionable practice
exists any where in their
respective talukas, and if it
does, to furnish the particu-
lars required by Govern-
ment—

I have the honor to be
Sir,

Your most Obedient Servant

Khan Bahadur
Deputy Commissioner.

Deputy Commissioner's office,
Hassan District.

Dated, (Camp St. Andre) 7th Aug 1892.

From,

(5)

The Deputy Commissioner,
Hassan District.

To

The Chief Secretary to the
Government of Mysore
Bangalore.

Sir,

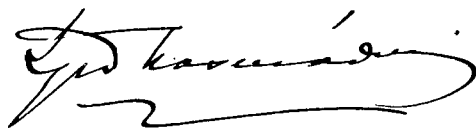

Referring to your circular
memo No $\frac{3114-21}{32}$ of the 20th May
last and subsequent reminder
calling for a statement showing
the amount of duty actually
collected within the last five
years or the difference between
the quantity estimated by the
Pohls & Co., I have the honour to
state that the practice referred
to in your circular memo does
not

not obtain in this District as
it does in the Nagpur Division.
Orders were however forwarded to the
Amildars, on receipt of your
memo, and reminders have also
been sent and on receipt of their
replies such information as is
available will be furnished.

I have the honour to be,

Sir,

Your most obedient servant

J. D. Commissioner

From

The Deputy Commissioner

Sheringa District

To

The Chief Secretary to the

Government of Mysore.

Dated 7th June 1893.

No 1474 in 2
1415

+ dated 7th
Instant

Has the honor to submit for the information of Government copy of the Proceedings of the undersigned on the subject of the production of Kupari in the several taluks of the District in the last 5 years.

2. A copy of the statement has been forwarded to the Deputy Commissioner of the Madar and Hassan Districts with a request that similar statements from their Districts may kindly be furnished as early as convenient, for purposes of comparison.

3. A further report will be submitted on receipt of the reports called for from the taluks.

Abdul Rahman K.B.T.

Deputy Commissioner

Sd/-

Proceedings of the Deputy Commissioner,
 Shimoga District dated Shimoga, 7th June
 1893

The production of Separi in the
 several Talukas of the District during
 the last-5 years has been as per
 statement-enclosed.

2. The yield of Separi per acre
 in the several Talukas was as given
 below:—

<u>Talukas.</u>	<u>Government</u>	<u>Private.</u>
Tirthahalli	From 17 to 29 Maunds.	From 20 to 27 Maunds.
Nagar	" 13 to 22 "	" 16 to 22 "
Lagar	" 21 to 34 "	" 22 to 34 "
Soral	" 12 to 16 "	" 12 to 16 "
Shikaripur	" 3 to 4 "	" 4 to 5 "
Shimoga	" 5 to 9 "	" 6 to 10 "
Channarayana	" 4 to 7 "	" 5 to 8 "
Hosur	" 12 to 26 Maunds.	" 15 to 28 Maunds.

3. It will be seen from the above
 that the yield in Private lands in
 most of the Talukas was better than

that no Government land. The
variation requires an explanation

4. Again it should be explained
why the variations in the principal
Talukhs producing Sufari (Sirtahli,
Kagor, Lagor and Sorab) should
be so great.

5. Shikarpur is the worst Taluk
in respect of production, according
to the figures given in the State
Report. The Sheringa Taluk and
even the Shindan Taluk of Bhan-
agpur have beaten Shikarpur.
There is no reason why backward
parts of Shikarpur should not
have produced as much as those
of the principal Talukhs named
above. At any rate Shikarpur
ought to have yielded a greater
quantity of Sufari than Sheringa.
It is evident that fraud goes on
without any check whatever in
the Shikarpur Taluk.

6. The marked variations between

Kounali and Chammagiri which are Gairam Taluk should be accounted for. There is no reason for so great a difference in these two Taluks. The Amildar of Kounali should give his best attention to the subject.

7. The Amildar and Deputy Amildar should at once thoroughly look into the figures, Lager Kattar, and find out the villages in each Katta which occasioned the variations noticed above, and submit their reports explaining each point fully before the close of July next.

8. They should, in future, have a strict eye on the production and Kalat duty of the villages: apparently committing frauds, check the Katta accounts monthly and send a detailed report by the 10th of each month during the season of production & Kalat.

9. The village Abli and Lager

Officials ought to be worked up in respect of the Kasarwan estimates and "Rakhi" lists, and the Amasars and Sheridars should make it a point to check a fair percentage of the said lists.

10. The Jamabandi officers will examine the above lists and other accounts making such local enquiries as deemed necessary, set matter right where required and submit a detailed annual Report on each of the Taluk settled by them.

11. The Taluk officers should make best endeavours to put down frauds in this regard, wherever they exist and see that the orders, issued from time to time for the protection of the Sayer Revenue which is an important one in the District, are really carried out by their subordinates.

12. It is hoped that a marked

improvement in every respect
will be effected and better results
attained in the next and future
years.

7th June 1873 } of Abdul Rahman K.B.
Shamanga } Deputy Commissioner

Nandana (1872-73) has
shown the presence of Leprosy
2. Leprosy is the only
Leprosy in the district
which has been out
found to an appreciable
extent

3. The Amil of Chik
Challapur and the Deputy
Amil of Nandana
have estimated that the
annual, presence of Leprosy
in the said Leprosy and
said Leprosy is to be
33⁷/₈ mounds, respectively
which the owners are
reported to have stayed
for their home occupation
4. The remaining Leprosy
officers have submitted
with statements.
